

Hardy Filtration

Integrated filtration solutions: air, water & oil

Natural Fibre Filter Media (Hog hair)

PERMATEX

Description

Natural fiber filters (Hog hair).

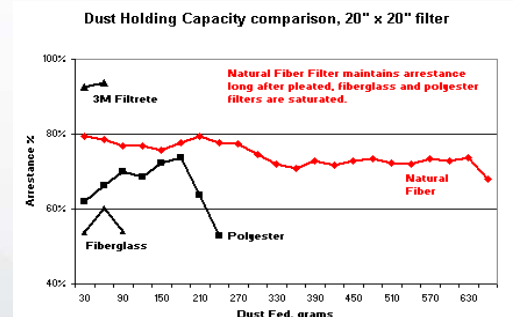

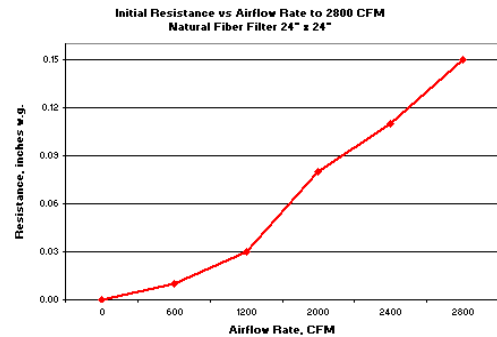

The filter is rigid and self supporting.

Can be easily cut to custom sizes (with a pair of scissors).

This filter can be used as prefilter in some applications. Permatex is recommended for very humid environments where filters are exposed to intemperante weather. The filters can be easily cleaned by vacuuming or rinsing with water.
