

Hardy Filtration

Integrated filtration solutions: air, water & oil

Activated Carbon Filter

CARBON

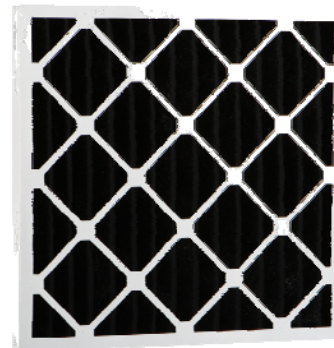

Description – ACTIF AIR

The impregnated carbon polyester media is bonded to a metal backing, pleated and sealed into a sturdy beverage cardboard frame to provide rigidity.

Ten times lighter than Granulated Carbon Filter.

For installation in HVAC systems.

No need for reactivation.

Description – CARBON TRAY

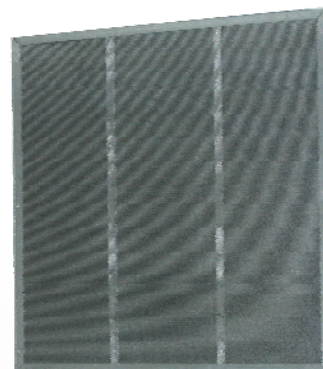

Constructed of perforated galvanized steel.

The carbon tray is available empty or full.

Choices of specific carbon are available depending on the application.

The carbon media is easy to change out.

A wide range sizes are available.

Description – BULK CARBON

A great selection of activated carbon is available.

Virgin carbon, impregnated carbon or activated alumina are available depending on the application.

Odorguard III

Granulated Activated Carbon Filter, for HVAC systems

Replaces existing filter with out any system modifications.

Available in standard and non-standard sizes of 1 in. and 2 in. thicknesses.

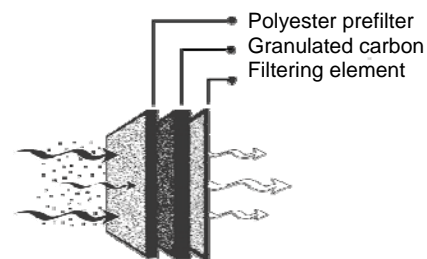

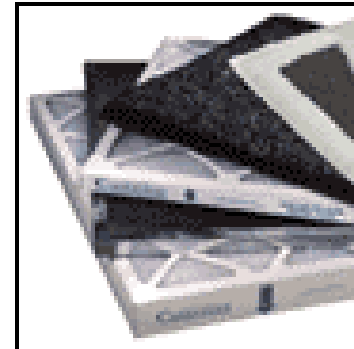

These filters use 60% of GAC activity and are listed UL Class 2.

Recommended to remove:

- Particulate.
- Odors and gaseous pollutants.

Characteristic:

- The granulated carbon filter holding capacities are 100, 200 and 300 grams/sq. ft. or 1075, 2150 and 3225 grams/sq. meter.
- Includes three filtering elements (see picture).

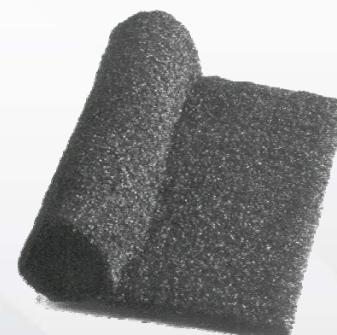

DIMENSIONS	PART NO.	QTY/BOX
15 X 20 X 2	ODORG-21520	10
16 X 20 X 2	ODORG-21620	10
20 X 20 X 2	ODORG-22020	10
12 X 24 X 2	ODORG-21224	10
20 X 24 X 2	ODORG-22024	10
24 X 24 X 2	ODORG-22424	10
14 X 25 X 2	ODORG-21425	10
16 X 25 X 2	ODORG-21625	10
20 X 25 X 2	ODORG-22025	10

PRODUCTS	NOMINAL THICKNESS	INITIAL RESISTANCE 300FPM / /500FPM
OdorGuard 300 Pad or cardboard frame	1"	.24 / .38
OdorGuard 600 Pad or cardboard frame	2"	.35 / .82

Carbon Media

Polyester impregnated activated carbon media.

Rolls or pre-cut pads are available upon request.
